

Community Challenge – The Chiming Tree

WE NEED YOUR HELP!

To celebrate our wonderful school family, together and apart during these exceptional times, this week's Community Challenge is to refresh The Chiming Tree in Paddy Freeman's Park.

The Friends of Paddy Freeman's have given us permission to donate chimes to the tree, use environmentally friendly wool to create a tree wrap and painted pebbles around the base.

Chime Donation

If you are able and would like to, please add chimes to the tree to bring it back to life. Staff from Cragside will be making their own donations throughout the week.

Tree Wrap

Using wool, you can crochet, plait or wrap it round the tree. Think of how beautiful it would be if we all did this. Take a look at these pictures for inspiration.

Pebble Power

Choose your pebble or stone. Those with a smooth surface work well. The best paints to use are waterproof paint or acrylic paint. Ideally you should use two coats to make sure the colour is thick enough. Cover your pebble with varnish or gloss to make it shiny and protect the painting. Place your pebble round the base of the chiming tree.
